## Martec

Recovering Lost Profit

### **Martec Solutions** – What we do:

- Product Recovery
- Pipeline Cleaning
- Heat Transfer (hot & cold filling)
- Cleaning of Process Equipment & Pipelines (CIP)
- Process Design
- Project Management

### **Martec Solutions** - How we do it:

- Flexible Marplugs
- Partnerships
- Optimising Processes
- “We offer Lean Manufacturing for Piped Products”
- “Better Food Production Partnership”

### **Martec Solutions** - Why?

- Increase in Process Yield of Saleable Product, which leads to increased profit, if it was previously waste then it is pure profit.
- Less costly waste streams
- Increased production because changeover times are reduced, which results in additional production runs and improved utilisation of equipment & manpower
- Add value to your manufacturing operations
- Increased profits generated in “better food production”
- Faster changeover times
- Where feasible minimise capital expenditure
- Work in Partnership with end users
